OPTIONAL INFORMATION			
Name of School:	Date of Inspection:		
Vocational Program/Course/Room:	Signature of Inspector:		

Guidelines: This checklist covers many of the regulations issued by the New Jersey Department of Health in N.J.A.C. 8:59 for compliance with the Worker and Community Right to Know Act and amendments to the Act (Bill S-7) signed into law on November 13, 1995. It applies to school district employees at all facilities. The New Jersey Department of Education in N.J.A.C. 6:53, Vocational Education Safety and Health Standards, also requires that hazardous substances be stored, handled and used in accordance with N.J.A.C. 8:59. Definitions of underlined terms are provided at the end of the checklist to help you understand some of the questions. Implementation of some or all of the "Right to Know" regulations may not be the individual classroom teachers's responsibility. The questions which are most likely not the responsibility of the individual teacher are marked with an asterisk (*).

Right to Know Survey

Please Circle

Y N N/A DK

1.* Have all <u>hazardous substances</u> on the New Jersey Right to Know Hazardous Substance List (other than <u>carcinogens</u>, <u>mutagens or teratogens</u> on the Special Health Hazard Substance List) been reported on the Right to Know Survey if they are in pure form, if they constitute more than one percent of a mixture, or if they are present in the aggregate of 500 pounds or more in a container regardless of the percentage of the substance in the mixture? [N.J.A.C. 8:59-2.2(a)]

Comments/Corrective Action

69

2.*	Are <u>carcinogens</u> , <u>mutagens</u> , <u>or teratogens</u> on the Special Health Hazard Substance List reported on the Right to Know Survey if they constitute more than one-tenth of one percent (0.1%) of a mixture? [N.J.A.C. 8:59-2.2(a)]	Y N N/A DK
3.*	Has the approved common chemical name (as listed on the RTK Hazardous Substance List) and the Chemical Abstracts Service (CAS) number been reported on the Right to Know Survey for each <u>hazardous substance</u> ? [N.J.A.C. 8:59-2.2(a)]	Y N N/A DK
4.*	Are the synonyms substituted on the survey or on labels the same as those listed on the New Jersey Department of Health RTK Hazardous Substance List? [N.J.A.C. 8:59-2.2(a) & 5.7]	Y N N/A DK
5.*	Have the names of the products containing the <u>hazardous</u> <u>substances</u> been listed in alphabetical order on the Right to Know Survey as well as the type of container, the greatest amount of product in the prior 12 months, the physical state of the product, the number of employees exposed or potentially exposed to the product, and the exact location of the product on site? [N.J.A.C. 8:59-2.2(a)]	Y N N/A DK
6.*	Have the names of the <u>hazardous substances</u> in a product been listed in alphabetical order underneath the product name on the Right to Know Survey as well as the New Jersey Right to Know Hazardous Substance List Substance Number, Chemical Abstracts Service number (CAS), United States Department of Transportation Hazardous Materials Identification Number (DOT No.), percentage of the hazardous ingredients in the product (mixture), and the Special Health Hazard Codes of the ingredients? [N.J.A.C. 8:59-2.2(a)]	Y N N/A DK

Comments/Corrective Action

09/96

7.* Have the inventory pages on the Right to Know Survey been Y N N/A DK divided into large quantities of hazardous products at a single location and all other products called small quantities? [N.J.A.C. 8:59-2.2(a)] Note: Large quantities are defined as products present in a quantity greater than 100 pounds, gallons or cubic feet (inventory range codes 12 through 20). 8.* Where common chemical names or CAS numbers of product Y N N/A DK ingredients are unknown, are written records available which show at least two efforts to obtain this information from the supplier or manufacturer of the product? [N.J.A.C. 8:59-2.2(e)] Note: Examples of written records include letters or documented phone calls. 9.* Y N N/A DK Have all <u>hazardous substances</u> stored by subcontractors at your <u>facility</u> been reported on the Right to Know Survey? [N.J.A.C. 8:59-2.2(h)] 10.* Y N N/A DK Have you obtained Material Safety Data Sheets for all products present at your facility? [N.J.A.C. 8:59-2.2(b) & (i)] 11.* Are records available, such as manufacturers' Material Safety Y N N/A DK Data Sheets, by which an inspector can identify which hazardous substances are in which products? [N.J.A.C. 8:59-2.2(b)Y N N/A DK 12.* Has the Certification of Right to Know Education and Training Programs been completed in the Right to Know Survey? [N.J.A.C. 8:59-6.1(d)]

13.* If the common chemical name and Chemical Abstracts
Service number of all <u>hazardous substances</u> needed to
complete the Right to Know Survey can not be obtained, has
the form entitled "Products with Unknown Ingredients"
supplied by the New Jersey Department of Health been
completed for the products and submitted with the Right to
Know Survey? [N.J.A.C. 8:59-2.2(f)]

Y N N/A DK

14.* Has a complete Right to Know Survey been submitted every five years? [N.J.A.C. 8:59-2.1 and Bill S-7, November 13, 1995]

Y N N/A DK

Note: During the interim years, a public employer only needs to report new hazardous substances which come into the facility during the year. Deletions to the inventory and changes in quantity are not required to be reported. Also, a specific deadline of July 15th has bee set for the return of the Right to Know Survey (every five years) and Survey Update (interim years). The survey only has to be completed when a blank survey form is received from the New Jersey Department of Health.

15.* Has an original Right to Know Survey been sent to the New Jersey Department of Health and copies sent to: [N.J.A.C. 8:59-2.1(d)]

a. the county health department, county clerk or designated county lead agency?

Y N N/A DK

b. the local health department?

Y N N/A DK

c. the local fire department?

Y N N/A DK

Comments/Corrective Action

09/96 72

- d. the Local Emergency Planning Committee?
 e. local police department?
 Has the Right to Know Survey been completed and distributed within 90 days of receipt? [N.J.A.C. 8:59-2.1(d)]
- 17.* Has a copy of the Right to Know Survey been kept for the School's central file? [N.J.A.C. 8:59-7.2(a)]

Labeling

18.* Have all <u>containers</u> **not exempted or excluded below** been labeled with the official chemical or approved common chemical names (see below) and CAS numbers of the five most predominant ingredients **AND** any <u>hazardous</u> substances in the <u>container</u> down to 1.0% (or 0.1% for carcinogens, mutagens and teratogens)? [N.J.A.C. 8:59-5.1(c)]

Exclusions:

16.*

- ! Containers labeled according to certain federal regulations that govern pesticides, transportation, food, drugs, PCBs, cosmetics, gas lines, waste material and radioactive materials are partially or fully exempted. [N.J.A.C. 8:59-5.1(d) & 5.5]
- ! Fire extinguishers, drinking water, certain consumer products, toilets, sinks, fuel in a motor vehicle, bars of soap, chalk, polaroid film, dry cell batteries, glue sticks, photocopier toners and developers in self-contained cartridges, grinding wheels, pens, pastels, thermometers, typewriter correction fluid, temporary small containers filled by an employee and used only

Comments/Corrective Action

by that <u>employee</u> during a workshift, solid articles which do not change form or pose any health hazard, <u>process containers</u>, and substances constituting less than one percent of a mixture (or, for Special Health Hazard Substances, less than one-tenth of a percent) do not have to be labeled. [N.J.A.C. 8:59-5.6]

- ! All offices used for office work are exempt from labeling containers in the office. Rooms in office buildings that are used for storage of cleaning supplies, printing, storage of maintenance materials, and other non-office work activity are **not** exempt.
- ! Containers that are two kilograms (4.4 pounds) or two liters (0.53 gallons) or smaller do not have to be labeled **if** they are labeled according to the OSHA Hazard Communication Standard, 29 CFR 1910.1200 and do not contain Special Health Hazard Substances which are included in the Special Health Hazard Substance List.

Note: The labeling exemptions are complex and are not completely defined above. Please consult the N.J.A.C. 8:59 for details. If an employer does not know the chemical name and Chemical Abstracts Service number of the components in a container, it shall make a good faith effort to obtain this information from the manufacturer or supplier. A good faith effort shall consist of two contacts by letter and/or documented phone call to the manufacturer or supplier. The employer shall maintain this written documentation of its good faith effort.

Comments/Corrective Action			

19.*	Are labels affixed to <u>containers</u> which are two kilograms or two liters or smaller which contain Special Health Hazard Substances? [N.J.A.C. 8:59-5.6]	Y N N/A DK
20.*	Have all <u>containers</u> in which more than one percent of the contents are unknown been labeled "Contents Unknown" or "Contents Partially Unknown," as appropriate? [N.J.A.C. 8:59-5.1(b)]	Y N N/A DK
21.*	Are labels affixed to <u>containers</u> within 5 days of arrival at the <u>facility</u> or when opened, if sooner? [N.J.A.C. 8:59-5.1(d)]	Y N N/A DK
	Note: <u>Containers</u> that are packed within properly labeled larger containers need not be labeled until they are removed from the larger <u>container</u> .	
22.*	Are all labels durable, easy to read, and prominently displayed? [N.J.A.C. 8:59-5.8]	Y N N/A DK
23.*	Are <u>containers</u> stored by a subcontractor at the <u>facility</u> properly labeled? [N.J.A.C. 8:59-5.10]	Y N N/A DK
24.*	Are pipelines labeled at the valve or valves where the substance enters the <u>facility</u> and at normally operated valves, outlets, vents or drains that would release a substance from the pipeline? [N.J.A.C. 8:59-5.2]	Y N N/A DK

Comments/Corrective Action

Education and Training Program

Has an initial education and training program been conducted Y N N/A DK 25.* for all employees who are exposed or potentially exposed to hazardous substances? [N.J.A.C. 8:59-6.1(a) & 6.2(a)] Note: This applies to full-time, part-time or seasonal employees including paid students and volunteers. 26.* Does the initial training program include training in the following: [N.J.A.C. 8:59-6.3] Y N N/A DK Overview of the Right to Know Law, including a. employee rights and how to get information on hazardous substances in the workplace? Overview of occupational health principles? Y N N/A DK b. Y N N/A DK Information on the health risks of the specific c. hazardous substances to which the employees are exposed or potentially exposed and how to handle the substances under all circumstances? A walkthrough of the <u>facility</u> to show the location of d. Y N N/A DK hazardous substances? e. Hands-on training in the use of personal protective Y N N/A DK equipment? 27.* Y N N/A DK If the person who conducts the training on technical topics is

Comments/Corrective Action

an in-house <u>employee</u> (see question 25 b, c and e), is the person a technically qualified person? [N.J.A.C. 8:59-6.1]

28.*	If the person who conducts the training or develops the training program is an outside consultant, is that person certified by the New Jersey Department of Health? [N.J.A.C. 8:59-12.1]	Y N N/A DK
29.*	Does the training program include written objectives and a method of evaluation? [N.J.A.C. 8:59-6.3(a) & 6.4]	Y N N/A DK
30.*	Is there a written record of training, including a description of the training, dates, names and signatures of attendees, participants title or job description, the name of the instructor and qualifications, whether the course is initial or annual, the course objectives, a description of any videotapes used, copies of all hand out materials and methods used to evaluate training effectiveness, and is it kept in a file that is easily accessible to a RTK inspector? [N.J.A.C. 8:59-6.1(e)& 6.4]	Y N N/A DK
31.*	Has annual Right to Know refresher training been given within the last two years to exposed or <u>potentially exposed employees</u> ? [N.J.A.C. 8:59-6.2 and Bill S-7, November 13, 1995]	Y N N/A DK
32.*	Have all new or reassigned <u>employees</u> who are exposed or <u>potentially exposed</u> to <u>hazardous substances</u> been trained within the first month of their assignment? [N.J.A.C. 8:59-6.2(b)]	Y N N/A DK
33.*	Has the Right to Know brochure, provided by the New Jersey Department of Health, been distributed to all new <u>employees</u> within the first month of employment and annually to all <u>employees</u> ? [N.J.A.C. 8:59-6.3(c)]	Y N N/A DK

Comments/Corrective Action

34.* Has an alternative training program been provided to employees who are only exposed to toner, developer or gasoline? [N.J.A.C. 8:59-6.3(f)]
35.* Has a training program in Spanish been provided to employees whose native language is Spanish and who cannot read or speak English above a 6th-grade level? [N.J.A.C. 8:59-6.3(f)]

Right to Know Poster

36.* Has the Right to Know Poster, provided by the New Jersey Y N N/A DK Department of Health upon request, been posted on bulletin boards, or in other conspicuous areas, to inform employees of their rights? [N.J.A.C. 8:59-6.3(d) and 7.2(b)]

Right to Know Central File

- 37.* At each <u>facility</u> with <u>hazardous substances</u> is there a central Y N N/A DK file which contains the following? [N.J.A.C. 8:59-7.2(a)]
 - a. Right to Know Survey
 - b. Appropriate Hazardous Substance Fact Sheets
 - c. Right to Know Hazardous Substance List
 - d. Material Safety Data Sheets

Comments/Corrective Action

09/96

- 38.* Are <u>employees</u> who request copies of the RTK Survey,
 Hazardous Substance Fact Sheets, or Material Safety Data
 Sheets, given this information as soon as possible or within 5
 working days of the request? [N.J.A.C. 8:59-7.2]
- 39.* Are provisions made to provide a Spanish translation of the Right to Know Survey, relevant Hazardous Substance Fact Sheets, and if applicable, Material Safety Data Sheets to employees whose native language is Spanish.? [N.J.A.C. 8:59-7.2(c)]

Definitions:

<u>Carcinogen</u> is a substance that can directly, or after transformation, act to initiate or promote the development of malignant neoplasia.

<u>Container</u> means a receptacle used to hold a liquid, solid, or gaseous substance, including, but not limited to, bottles, pipelines, bags, barrels, boxes, cans, cylinders, drums, cartons, vessels, vats, and stationary or mobile storage tanks. <u>Container</u> shall not include <u>process</u> <u>containers</u> or building structures that are not capable of holding liquids, solids, or gases.

Employee shall have the same meaning as <u>public employee</u>.

<u>Exposed</u> means that a public <u>employee</u> is subjected to a hazardous chemical in the course of employment through any route of entry (inhalation, ingestion, skin contact or absorption, etc.), and includes potential (for example, accidental or possible) exposure.

Comments/Corrective Action		

<u>Facility</u> is the building, equipment and contiguous area at a single location used for the conduct of business and shall include any area where <u>employees</u> are periodically assigned. Remote installed equipment that is not located in a building, which an <u>employee</u> may occasionally repair, maintain, check for proper operation, expand, remove, or replace shall be considered part of the facility from which <u>employees</u> are assigned to perform this work.

<u>Hazardous substance</u> means any substance, or substance contained in a mixture, included on the hazardous substance list developed by the New Jersey Department of Health pursuant to N.J.S.A. 34:5A-5, introduced by an employer to be used, studied, produced, or otherwise handled at a facility. Note: There are exclusions from this definition - See N.J.A.C. 8:59-1.3.

<u>Mutagen</u> is an agent capable of disturbing the integrity of the hereditary mechanism of the cell or organism.

<u>Potential exposure</u> includes exposure resulting from foreseeable emergencies such as, but not limited to, equipment failure, rupture of containers, or failure of control equipment which could result in an uncontrolled release of a hazardous substance into the workplace and exposure to a public <u>employee</u>.

<u>Process container</u> means a container, excluding a pipeline, the content of which is changed frequently; or a container of 10 gallons or less in capacity, into which substances are transferred from labeled containers, and which is intended only for the immediate use of the <u>employee</u> who performs the transfer; or a container on which a label would be obscured by heat, spillage or other factors; or a test tube, beaker, vial, or other container which is routinely used and reused. The contents of a container will be deemed to be "changed frequently" if the contents are changed at least once per shift. "Routinely used and reused" shall not include the situation where the same substances are continually being added and removed from the process container as in a continuous flow process.

<u>Public employee</u> means any paid full-time or part-time salaried, seasonal or hourly worker of a covered public employer, and shall include volunteer firefighters and volunteers who work for a covered public employer.

Technically qualified person means 1) For training purposes, a person who is a registered nurse or a Certified Industrial Hygienist, or has a bachelor's degree in industrial hygiene, environmental science, health education, chemistry; or a related field and understands the health risks associated with exposure to hazardous substances; 2) For training purposes, a person who has completed at least 30 hours of hazardous materials training offered by the New Jersey State Safety Council, an accredited public or private educational institution, labor union, trade association, private organization or government agency and understands the health risks associated with exposure to hazardous substances, and has at least one year of experience supervising employees who handle hazardous substances or work with hazardous substances. The 30 hour requirement may be met by the combination of one or more hazardous materials training courses; 3) a person who has successfully completed a Department of Health approved instructor training course; or 4) For training purposes, a person who has received certification pursuant to N.J.A.C. 8:59-12.

<u>Teratogen</u> is a substance which acts during pregnancy to produce a physical or functional defect in the conceptus or offspring.
